

Supply List for Jeweled Forest

- Pattern “Jeweled Forest” by McCalls Quilting--available only as a pdf download at <https://www.quiltingdaily.com/product/jeweled-forest-quilt-pattern-download/>
Cost \$7.99
- Fabric for your project as detailed in the pattern.
- Copies of the foundation piecing templates as requested in pattern. Don't worry about copying them all because you will not finish the project in one day. You will, however, make a good start.
NOTE: I usually recommend using **Carol Doak's Foundation Papers** or newsprint sheets for copies and these are fine. However, as I finished up my project, I realized how much paper ripping is necessary after you've finished stitching. Therefore, you may want to consider using **Perfect Piecing Foundation Sheets** by June Tailor. They are a bit more expensive but if you find paper-tearing tedious, these might make the job easier. Both can be found at **The Old Country Store**.
- Rotary cutter with small rotary mat for next to your machine
- Sewing machine with needles and a neutral thread
- Thread snips or small scissors
- Glue stick or flat head pin
- Scotch tape (optional)
- Paper-cutting scissors
- Small wooden seam presser, available at **The Old Country Store** (optional)
- Add-a- Quarter ruler (optional but highly recommended)

If you want to get a faster start, you can cut out some of your fabrics and organize them according to the block. The dimensions for your pieces are included on the templates in the pattern.

Let me know if you have any questions.

Can't wait to work on this project with you....

Ann
