

BERNINA Embroidery Club – March 2025 Lemon Table Topper Supply List

During this class we will construct a table topper with embroidered lemons to help us think ahead to spending time on the porch drinking lemonade when the gets warmer. The project will focus on design placement, a skill that is important to machine embroidery. Making bias tape for the binding will also allow attaching the binding to curves without having creases.

Please review this supply list and bring the requested items to class.
